CBD sent the 2012 article, which isn't about OR. I sent them the 2014 article, which is about OR, and told them they should review it because it would come up.

Confused. Did you send her the 2014 Bednarsk? CBD sent them a 2012 one?

I did send it to them and told them to make sure to review it. See Karla's response below. It isn't the same research. The 2012 article is from a different location altogether.

Hi Karla,

Can you please make sure that you guys reviewed the following article and address it in the CBD response to comments? I know it came out well after your data cutoff, but I know it will be brought up. Thx.
